Vehicle Radiator Water Pipe Heat Resistant 25460-37101 Water Coolant Hose

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 25460-37101
- Minimum Order Quantity: 10 PCS
- Price: \$1.72 ~ \$2.73
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3~30 work days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 50000 pcs per month

Product Specification

- Name: Radiator Water Pipe
- Brand: OEM
- Size: 1/2 Inch
- Material: Copper
- Pressure Rating: 1.6MPa
- Application: Automotive
- Highlight: **Vehicle Radiator Water Pipe,
Radiator Water Pipe Heat Resistant,
25460-37101**

Product Description

25460-37101 High Quality Water Coolant Hose Water Pipe for Hyundai Santa Fe 2015 2546037101

Product Description:

Introducing our **high-quality** Water Coolant Hose Water Pipe, a *critical* component designed to transport coolant fluid throughout your vehicle's cooling system.

Our water coolant hose water pipe is *engineered with precision and durability* to ensure optimal performance and reliable cooling.

Features:

Superior Construction

Our water coolant hose water pipe is crafted from top-notch materials, such as reinforced rubber or silicone, that are heat-resistant, pressure-resistant, and chemical-resistant. This robust construction allows for higher strength, more flexibility, and longer-lasting performance in harsh operating conditions.

Efficient Coolant Flow

The water coolant hose water pipe is necessary for the circulation of coolant fluid between the engine, radiator, heater core, and other cooling system components. It efficiently transfers heat away from the engine, guaranteeing proper engine temperature regulation and avoiding heat exposure.

Leak and Burst Resistance

Our water coolant hose water pipe has been made to handle high pressures and temperature swings, reducing the possibility of leaks or bursts. It comes with reinforced layers and reinforced connectors that deliver a secure connection, improving the cooling system's overall performance.

Temperature and Chemical Resistance

The water coolant hose water pipe has been designed to endure intense temperature variations and contact with coolant chemicals. It can resist deterioration, enlargement, and cracking, ensuring constant coolant flow and avoiding coolant pollution.

Easy Installation

Our water coolant hose water pipe has been engineered for seamless installation, making it suitable for professional mechanics and DIY lovers alike. It is a straight fit alternative for your car's original water pipe, guaranteeing compatibility and a simplified installation process.

Quality Assurance

Our water coolant hose water pipe goes through strict testing and quality control checks to meet or exceed industry standards. It is made by highly respected producers that prioritize quality and performance, giving you a reliable and long-lasting product.

Support and Services:

Technical Support and Service for Radiator Water Pipe

We provide our customers with comprehensive technical support and service for Radiator Water Pipe.

We offer technical advice and recommendations on installation and operation of the product.

We provide timely repair and maintenance services.

We respond to customer inquiries within 24 hours.

We provide online and telephone customer service.

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specilizing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts,electric parts, steering parts,transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years
