

16400-0L150 Aluminum Car Radiator Compatible For Toyota Hilux

Our Product Introduction

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 16400-0L150
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3-35 days
- Payment Terms: D/P, L/C, T/T

Product Specification

- Size: Standard
- Material: Aluminum
- Warranty: 12 Months
- Type: Car Radiator
- Country Of Origin: China
- Name: Automobile Spare Parts

Product Description

Product Description:

A car radiator is an incredibly important part of a vehicle's cooling system. This component plays a critical role in regulating the engine's temperature by dissipating heat generated during the combustion process.

Typically, a car radiator consists of a series of thin metal tubes or channels known as the core. These tubes are connected to inlet and outlet tanks. The core is usually made of aluminum, which is an excellent conductor of heat, while the tanks are made of plastic or aluminum.

The primary purpose of a car radiator is to keep the engine cool by transferring heat from the coolant, which is circulating through the engine, to the surrounding air. To achieve this, the radiator uses a combination of conduction, convection, and radiation.

Features:

Efficient Heat Dissipation:

Our Car Radiator is designed with a high-density core made up of thin metal tubes and cooling fins. This construction maximizes the surface area for heat transfer, which ensures efficient dissipation of heat generated by the engine during operation. It effectively cools the coolant as it flows through the radiator, maintaining the optimal operating temperature.

Durable Construction:

Our radiator is built to withstand the demands of daily driving. It features a sturdy and corrosion-resistant aluminum core, which provides excellent heat conductivity and durability. Additionally, the inlet and outlet tanks are made from high-quality materials to ensure long-lasting performance.

Enhanced Cooling Performance:

The design of our Car Radiator, including the arrangement of tubes, fins, and coolant flow paths, is optimized to maximize cooling efficiency. This ensures that your engine remains at a safe and consistent temperature, preventing the risk of overheating and potential engine damage.

Quality Assurance:

We have strict quality control processes in place to ensure that our Car Radiators meet the highest standards of reliability and performance. Each radiator undergoes thorough testing to ensure optimal cooling efficiency and durability.

Warranty:

We stand behind the quality of our Car Radiators and offer a warranty to provide you with peace of mind, knowing that your radiator is protected against any manufacturing defects or faults.

Applications:

Upgrade Your Vehicle's Cooling System with Our Premium Car Radiator

Are you looking for a way to enhance your vehicle's cooling performance? Look no further than our top-of-the-line car radiator. With optimal engine temperature control and reliable operation, our premium car radiator ensures your engine runs smoothly and prolongs the life of your vehicle.

Our Car Radiator has been designed with durability and efficiency in mind, so you can trust that it will provide you with reliable and long-lasting performance. Don't compromise on the quality of your vehicle's cooling system - upgrade today with our premium Car Radiator.

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specilizing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts,electric parts, steering parts,transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;
Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years

A large of stock

Professional export company

Accept small order

We can design anything well according to customers' requirment
